

## Generic Mail Email Setup

---

*In this tutorial we will be guiding you through the process of configuring email on a generic email client. You should be able to add your email account to any application using these settings.*

**Account Type:** We recommend IMAP.

**Mail Server:** mail.hostedemail.com

**User Name:** Your full email address.

**Password:** Your email account password. Sent to you after signup.

**SMTP Server:** mail.hostedemail.com

**Port:** 993 (IMAP or 995 (POP))

**Outgoing Mail Server Port:** 465
